a. New course.

ECPEL 891 Leadership for Diverse Populations
3 hours, plus 15 hours of fieldwork; 3 credits
Pre- or corequisites: ECPEL 880 (Leadership Theory) and ECPEL 888 (Critical Issues in Public Education)
This course provides candidates seeking New York State School Building Leader/School District Leader certification with the knowledge, skills, and dispositions necessary to enhance their understanding of the unique organizational, administrative, supervisory, and policy planning details inherent in a school program that serves diverse student populations including (1) children with special needs; (2) English Language Learners (ELL), and (3) children who are gifted and talented. Candidates are exposed to research-validated programs and applied theory that result in the creation of effective learning environments for these populations, and are provided with multiple opportunities to reflect on their leadership goals regarding best practices in curriculum design, instructional practices, and school-wide support services to meet the needs of diverse students.

Rationale The rationale for this course is driven by (1) ample research attesting to the need for increased knowledge of diverse student populations on the part of general education administrators, and (2) a policy initiative promulgated by the New York State Education Department (NYSED) requiring all candidates for New York State School Building Leader/School District Leader certification to pass a state assessment titled Educating All Children Test. This policy becomes effective for all candidates applying for New York State certification on or after May 1, 2014. This course is a proactive response to that NYSED directive. Course goals and objectives are consistent with the Queens College Principles for Educational Preparation as identified by the National Association for the Accreditation of Teacher Education (NCATE).

deposition, dry and wet etching of semiconductors, growth of semiconductor nanostructures and structural and optical characterization. The students will gain in-depth understanding of the techniques and obtain hands-on training on the various tools needed for nano and microfabrication.

b. New course.

PHYS 676. Foundation of Growth Techniques.
4 hr.; 4 cr., Prereq.: Graduate Standing and permission of department.
Topics include: basics of vacuum science and technology, thermodynamics and kinetics of growth, introduction to phase diagrams, bulk growth and thin film growth, including physical vapor deposition (PVD), hydride PVD, chemical vapor deposition (CVD), pulsed laser deposition (PLD), molecular beam epitaxy (MBE), and atomic layer deposition (ALD). Students will learn basics of materials science, physics, and instrumentation required to “grow” various materials with the emphasis on semiconductor thin films.

Rationale (Please include an explicit statement regarding how you expect this new course to fit into your graduate program.)

5b.i. Proposal for BA/MA in Urban Studies Affairs

MOTION: Duly made by Professor Richard Bodnar, Dean of Research and Graduate Studies:

“To accept the BA/MA in Urban Studies Affairs”

Hearing no objection to the motion, Professor Bodnar moved unanimous consent.

Proposal for BA/MA in Urban Studies/Urban Affairs

Description: The BA/MA program will operate as follows:

1. The program will be available to Urban Studies majors (and, on a case by case basis, majors in other social science majors) with an overall GPA of 3.0 and a GPA of 3.0 or greater (a GPA of 3.5 is strongly recommended) in Urban Studies course, or courses in their major, if they are not Urban Studies majors. They must maintain a 3.0 GPA in their graduate courses in order to receive the MA degree.
2. Students must apply to the BA/MA program in their upper sophomore or junior year. They will apply through the Office of the Dean of Graduate Studies with the normal letters of recommendation and personal statement.
3. After acceptance to the BA/MA program, students may take up to four 3-credit graduate-level Urban Studies elective courses while they are still undergraduates. They must attain a minimum grade of B- in these courses, and they must achieve an overall GPA in these four courses of at least 3.0 if they are to continue into the remainder of the program. The required courses for the MA in
Urban Affairs are:
URBST 620 Urban Research Writing
URBST 724 Introduction to Public Policy
URBST725 Urban Research Methods
Either URBST 727, Public Management or URBST 745, Community Organization

4. Prior to reaching 120 credits and completing their undergraduate requirements, graduate courses will be billed at the undergraduate rate and will count toward both the BA and MA degrees. Graduate courses taken after completing 120 credits will be billed at the graduate rate.

5. Because students in the B.A./M.A. program will have taken a number of writing-intensive courses, including the required course for the Urban Studies major, URBST 330W, Contemporary Urban Theory (or similar courses in other social science majors), they will be exempt from URBST 620, Urban Research Writing. However, they must still take 30 graduate credits to receive the MA degree.

6. Students in the program may take the required graduate courses (see above) only after completing their undergraduate program. Thus, the typical student in the B.A./M.A. program will take four elective graduate courses during their senior year and, during the fifth year, will take three required graduate courses (URBST 724, 725, and 727 or 745) and three graduate electives, for a total of 18 credits.

7. Students in the B.A./M.A. program will be encouraged to prepare a Master's Thesis or Capstone Project, but this will not be required.

8. It is generally expected that B.A./M.A. students will complete their graduate studies within one year after completing their undergraduate requirements.

5b.ii. Master of Arts in Music

MOTION: Duly made by Professor Richard Bodnar, Dean of Research and Graduate Studies:

“To accept the Master of Arts in Music proposal”

Hearing no objection to the motion, Professor Bodnar moved unanimous consent.

MASTER OF ARTS IN MUSIC (HEGIS 1004, SEC 02733)

To Read:
The Aaron Copland School of Music offers conservatory-level training in classical performance, jazz performance, and jazz composition, leading to the Master of Music (MM) degree. It offers university curricula in musical composition, theory, and musicology, leading to the Master of Arts (MA) degree. In conjunction with the Division of Education, the School of Music offers a music education program leading to the Master of Science (MS) degree in Music Education. In addition, the School of Music offers certificate and diploma programs in classical performance.
Requirements for Admission to the Master of Arts (MA) program

These requirements are in addition to the general requirements for admission, listed elsewhere in this Bulletin.

1. An undergraduate degree with a major in music (or its equivalent)

2. Applicants apply in one of three areas of study: composition; theory; or musicology. Applicants should submit copies of recent work to Professor William Rothstein, Graduate Advisor, Music Building, as stipulated below:

   Composition: two or three recent works
   Theory: one or two examples of tonal composition and a recent paper
   Musicology: one or more recent papers

3. International students are required to take the Test of English as a Foreign Language (TOEFL), with a minimum score of 550 on the paper-based examination or the equivalent score on the internet-based examination.

4. Applicants in theory and musicology are required to take the Graduate Record Examination (GRE).

Requirements for the Master of Arts Degree

These requirements are in addition to the general requirements for the Master of Arts degree, listed elsewhere in this Bulletin.

The MA in Music comprises three tracks, or majors: composition; theory; and musicology. All MA students must complete 36 credits, including a culminating project (thesis) in the major area. The thesis is completed under the supervision of an advisor approved by the Graduate Advisor.

In addition to the required coursework (including the thesis), each candidate for the MA degree must pass all of the following exams prior to receiving the degree:

(a) The Theory Qualifying Exam, covering skills in music theory and general musicianship, is taken before a student registers for the first semester of study. Each of the examination’s four parts (harmonization, sight singing, dictation, and keyboard harmony) must be passed before graduation. Those students who fail in any part of the exam will consult the Graduate Advisor for coursework or other recommended study.

(b) The History Qualifying Exam tests the student’s knowledge of the history of Western music. This exam is also taken before a student registers for the first semester of study. Students who fail this exam will consult the Graduate Advisor for coursework or other recommended study.

(c) A reading proficiency examination in French, German, or Italian is required of all students majoring in theory or musicology. Composition majors may substitute an examination in foreign musical terms for the language examination.

   **Be It resolved**, that the Queens College Academic Senate endorses the University Faculty Senate resolution calling for a review of and moratorium on Pathways and calls upon the Chancellery to begin the collaborative review process as requested.

   Passed by UFS Tuesday, December 4 by a vote of 63-3-2
   Resolution Calling for a Review of and Moratorium on Pathways

   **Whereas**, the CUNY faculty is committed to providing our students with an excellent education, and

   **Whereas**, the University Faculty Senate has expressed its objection to both the process and substance of the Pathways curriculum many times, both formally and informally, both in writing and orally, and

   **Whereas**, as the implementation of Pathways has progressed to each subsequent stage, the flaws of the Pathways curriculum have emerged more and more clearly to the faculty who will be teaching these courses and approving degree candidates, faculty who have spent their professional lives and careers devoted to the education of our students, and

Page 18 of 19
Whereas, faculty members have created courses under protest and in the context of coercion and because of necessity of providing new courses for their students, and

Whereas, certain curricular problems have been identified at campus after campus, specifically the need for modification of the numbers of contact hours for courses in certain disciplines and the number of credits overall, and

Whereas, faculty at several campuses have declined to act to approve courses proposed by their own colleagues because of these curricular problems, and

Whereas, the Board of Trustees Resolution of June 2011 which established Pathways calls for “all of these pathways, policies and processes, including the Common Core, be reviewed and evaluated each year for three years beginning in 2013, and every three years thereafter, to modify them as necessary to improve them or to meet changing needs.”

Therefore, be it Resolved, that the University Faculty Senate calls upon the Chancellery to begin the required review in January 2013 and conduct this review in consultation with the University Faculty Senate, and

Be it further Resolved, that the University Faculty Senate calls for a moratorium by the Chancellery on all further implementation of Pathways until this initial and collaborative review is concluded.
