3. Chair Brody made an editorial correction, adding Committee Reports Item 5d., that was postponed at the March 10, 2011 meeting.

4. Special Motions:
   i. MOTION: Duly made by Senator Kenneth Lord:

   “To accept the Resolution on General Education Requirements: Synthesis or Capstone”

   Hearing no objection to the motion, Senator Lord moved unanimous consent.

   Whereas all students entering Queens College in the Fall 2010 semester or later are required to take one course designated as a synthesis or capstone course; and

   Whereas about nine departments have had capstone courses approved for their majors and students in other majors will need to take a synthesis course; and

   Whereas the number of seats in synthesis courses scheduled for Fall 2011 is severely deficient to meet the needs of students who wish to graduate after the Fall 2011 semester; therefore be it

   Resolved that the General Education Requirement of a Synthesis or Capstone course be suspended for the Fall 2011 and Spring 2012 academic year; and be it further

   Resolved that the Office of General Education encourage departments to continue efforts to propose new or existing synthesis or capstone courses which will meet this requirement.

5. **URBST/SEES (11-04)**
   a. Change of Major: Environmental Studies

To Read:
The interdisciplinary major (BA) in Environmental Studies requires the following courses: ENSCI 100 and 112; URBST 252 and 372; and either ENSCI 373 or URBST 373. Additionally, students will choose six electives from the following list, at least two of which must be in the Natural Sciences. The list of acceptable electives will be expanded as new courses are developed. Other electives may be selected with the approval of advisors from the School of Earth and Environmental Sciences or the Urban Studies Department.
Natural Sciences: BIOL 106 (prerequisite BIOL 105), CHEM 240 (prerequisite CHEM 113), ENSCI 200 (prerequisite CHEM 113), ENSCI 373, ENSCI 383, GEOL 101
Social Science/Humanities: ANTH 270, ANTH 302, ECON 228 (or 228W), ENGL 327, 327W, PHIL 125, PSCI 287, URBST 141, URBST 207, URBST 235, URBST 236, URBST 253, URBST 254, URBST 258, URBST 373
6. Computer Science (11-05)

a. Change in hours.

To Read:
CSCI 370 Software Engineering
4 lec., 1 lab. 3 hr.; 3 cr. Prereq.: CSCI 220 and 313.
Principles of software engineering including the software life cycle, reliability, maintenance, requirements and specifications, design, implementation and testing. Oral and written presentations of the software design. Implementation of a large programming project using currently-available software engineering tools.

b. New course

CSCI 383:VT Computer Science Synthesis
3 hr. 3 cr. Prerequisite: Permission of instructor. May be repeated for credit when topics differ.
An examination of computational approaches to problem solving in a variety of contexts, either within the Computer Science discipline or between Computer Science and other disciplines. Students will be given an understanding of how knowledge is developed and managed using digital technologies in a various disciplines. How the course implements this structure will vary across offerings, but typically will involve determining what kinds of information form the basis for a discipline, a survey of techniques for storing and manipulating that information, and a project that either gives the student experience working with actual datasets from the discipline or investigation into alternate ways of gathering, storing, and accessing that information.

c. New course

CSCI 385:VT Computer Science Capstone
3 hr. 3 cr. Prerequisite: Open to upper division computer science majors. May be repeated for credit when project themes differ.
Each offering of this course will have a pre-announced theme that will serve as the basis for student projects that draw on one or more areas of computer science: typically, knowledge developed in previous courses in the major. Students will have the option of working in small groups, but may work individually instead. Each project group will present their initial project plan and final project summary to the class, with constructive critiques of others’ projects an essential component of the course structure.

URBST 107. Urban Communities: Local-Global Connections in Queens
3 hr., 3 cr.

An introduction to the diverse communities of Queens and the local and global issues and networks encountered in them. It focuses on how immigration has created complex settings with multiple cultural groups moving into and out of local neighborhoods. Students will examine the changing demographics and intercultural relations that mark multicultural Queens. They will see how these communities are addressing a series of issues ranging from economic struggles, to the formation of new socio-cultural identities, to new forms of civic and political participation. This course provides an opportunity for students to analyze their individual identity in the context of the cultural diversity of Queens and to perceive their own community within an increasingly globalized world.

9. SPAN (11-14)

a. New Course

Spanish 51. Hispanic-Jewish Literature in Translation
3 hr., 3 cr.
Introduction to representative Hispanic (Latin American, Brazilian and Spanish, Sephardic and Ashkenazic) fictional work (diaries, short stories, plays and novels), and critical material. The class begins with an overview of selected readings of Jewish literature produced in Spain during the Middle Ages: chronicles, romances, Hebrew and Arabic translations of moral tales. Primary focus is on texts from the early 20th century to the present. Students will be encouraged to attend Hispanic Film Festivals, museums and libraries in NYC that will enrich their understanding of Hispanic Jewish culture and literature.

Resolution on CUNY Pathways

Whereas, The Queens College Academic Senate appreciates the spirit of the Draft Resolution on the creation of an efficient transfer system, as proposed by the CUNY Office of Academic Affairs (OAA); and

Whereas, The Draft Resolution raises many issues, including the authority of local academic governance bodies, curricula at different schools and degree levels, and the quality of general education; and

Whereas, The Queens College Academic Senate is the body charged with maintaining the curricular integrity of the Queens College Bachelor’s degrees, and has developed the Queens College general education curriculum in a process involving students and faculty as an integrated component of the whole curriculum; and

Whereas, It is absolutely necessary that the academic governance bodies of each individual school or college examine the various issues involved in the standardization of curricula and credit totals mandated by the Draft Resolution; and

Whereas, This process will take time and cannot be rushed; now, therefore, be it

Resolved, That the OAA withdraw its Draft Resolution and allow academic governance bodies time to pursue the formation of a joint university wide task force composed of representatives of the OAA and university faculty to review the goals of the Pathways project and to report to the Chancellor by December 1, 2011.

[N.B. This resolution parallels in many ways and has adopted some of the language of one which was made by the City College Senate]

7c Resolution on Blood Drives

i. MOTION: Duly made by Senator James Robinson and seconded:

“To accept the Resolution on Blood Drives”

ii. MOTION: Duly made Senator James Robinson:

“To call the question”

Motion ii. passed. yes 45, no 1

iii. MOTION: Duly made:

“To accept the Resolution on Blood Drives”

Motion iii. passed: yes 42, no 4
WHEREAS: New York State Law protects its citizens against discrimination on the basis of sexual orientation.

WHEREAS: No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance (Title IX of the 1972 Education Amendment)

WHEREAS: The City University of New York, located in a historically diverse municipality, is committed to engendering values and implementing policies that will enhance respect for individuals and their cultures. The University believes that, in order to truly benefit from this diversity, the University must foster tolerance, sensitivity and mutual respect among all members of its community.

WHEREAS: The University does not condone and will not tolerate discrimination or harassment in employment or in its educational programs and activities.

WHEREAS: The City University of New York, as a public university system, adheres to federal, state, and city laws and regulations regarding non-discrimination and affirmative action including among others Section 1324b of the Immigration and Nationality Act (INA), Executive Order 11246, as amended, Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, Section 402 of the Vietnam Era Veterans’ Readjustment Assistance Act of 1974, as amended, the Equal Pay Act of 1963, the Age Discrimination in Employment Act of 1967, as amended and the Age Discrimination Act of 1975, the New York State Human Rights Law and the New York City Human Rights Law. The “protected classes,” as delineated in Executive Order 11246: (i.e. Black, Hispanic, Asian/Pacific Islander, American Indian/Alaskan Native and Women), were expanded on December 9, 1976 by the Chancellor of The City University of New York to include Italian-Americans. The Office of Management and Budget further expanded these protected classes in 2006 to include two or more races (not Hispanic or Latino) and replaces Asian/Pacific Islander, with Asian (not Hispanic or Latino) and Native Hawaiian (not Hispanic or Latino) and Black will be renamed as Black or African American (not Hispanic or Latino)

WHEREAS, The current federal Food and Drug Administration (FDA) donor deferral policy, first established in 1983, prohibits blood donation by men who have had sex with another man even one time since 1977; and

WHEREAS, The American Red Cross (ARC) has joined the American Association for Blood Banks (AABB) and America’s Blood Centers (ABC) in asking for guidelines that treat all donors equally and without regard to sexual orientation or gender.

WHEREAS, The American Medical Association (AMA) House of Delegates and the HIV Medicine Association (HIVMA), within the Infectious Disease Society of America, have requested that the FDA abandon these current donor policies in favor of policies consistent with sound science; and

WHEREAS, The AABB, ABC, and ARC, on March 9, 2006, at the Blood Products Advisory Committee of the FDA, at a workshop titled "Behavior-Based Blood Donors Deferrals in the Era of Nucleic Acid Testing (NAT)," issued a joint statement affirming that they believe that the current lifetime deferral for men who have had sex with other men is medically and scientifically unwarranted and recommended that the deferral criteria be modified and made comparable with criteria for other groups at increased risk for sexual transmission of transfusion-transmitted infections; and

WHEREAS, It is not rational to broadly differentiate sexual transmission via responsible male-to-male sexual activity from transmission via responsible heterosexual activity on scientific grounds. This differentiation is unfair, creates stigma and institutionalized homophobia without any justifiable public health imperative, and results in negative attitudes to blood donor eligibility criteria and blood collection facilities;

WHEREAS, In summary, the AABB, ABC, AMA, HIVMA, and ARC believe that the deferral period for men who have had sex with other men should be modified.

WHEREAS, FDA guidelines followed by The City University of New York and their respective blood drive vendors throughout its New York Campuses create unjustified stigma directed towards gay, bisexual, heterosexual males, as well as transgender identified people on the basis that they have had sex with another male since 1977; and
Be it Resolved, The Queens College Academic Senate calls upon the President of the United States to compel, the Secretary of the United States Department of Health and Human Services to adopt, policies that repeal the current donor suitability and deferral policies of the FDA regarding blood donation by men who have had sex with other men and, instead, direct the FDA to develop science based policies, consistent with A DRIVE FOR CHANGE, REFORMING U.S. BLOOD DONATION POLICIES (A Report by Gay Men’s Health Crisis)

and be it further

Resolved, that the Academic Senate recommends that all Blood Drives on The Queens College Campus cease and desist until such time when fair non-discriminatory practices are developed that are not based on gender or orientation.

and be it further

Resolved, The Queens College Academic Senate will transmit copies of this resolution to The Chancellor of The City University of New York, The Vice-Chancellor for Student Affairs, and to each member of The Board of Trustees.

MOTION: Duly made by Parliamentarian Dave Fields seconded and passed:

“To Adjourn”

The meeting was adjourned at 4:56 pm. The next Special Academic Senate meeting is on Thursday, May 5, 2011.
