c. Change to a Major: Psychology

To read:
Requirements for the Major in Psychology (Major code 090)
Required: A minimum of 36 credits in psychology, including PSYCH 101, 107, 213W, and one advanced research course from among PSYCH 311–321. PSYCH 101 is a prerequisite for all courses in psychology, with the single exception of PSYCH 107, Statistical Methods. PSYCH 107 is prerequisite for PSYCH 213W, Experimental Psychology, which in turn is prerequisite for any advanced experimental course. Thus, it is important that students who are majoring in psychology take PSYCH 107 and 213W early in their college career. Of the elective courses, students must take two from the list of courses presented below. These advanced courses have prerequisites in addition to PSYCH 101.

At least half of the courses in the major, including the advanced experimental research course, must be taken at Queens College. In order to graduate with a major in psychology, psychology majors must obtain a grade of a C or higher in each of the required Psychology Majors courses totaling 16 credits (i.e., PSYCH 101, 107, and 213W; 1 course from the Advanced Experimental courses – PSYCH 311, 312, 313, 314, 316, 317, 318, 319, 320, & 321).
Psychology Majors must also obtain a grade of C- or higher in each of the elective Psychology Major courses totaling 20 credits that will count toward the Psychology Majors degree.
Blanket credits given to transfer students as PSYCH 499 may not be counted toward the major or minor in psychology.
Psychology majors cannot take a Psychology class for a P/NC grade. There is a limit of 9 credits of the following courses: PSYCH 325, 326, 327, 391, and 392 with the added restriction that no more than 6 credits be taken with the same instructor.

Psychology majors are strongly advised to provide themselves with a diversified academic background by taking courses in a wide range of departments. In particular, they are advised to take: (1) a minimum of one semester of college-level mathematics; (2) a minimum of one year of natural science, of which one semester should be biology; (3) a minimum of one year of social science, of which one semester should be either sociology or anthropology; (4) a minimum of one semester of philosophy.
