What can you do with a MATH MAJOR?

Come find out!

Recent graduates will speak on their life after college and answer your questions.

**Benjamin Baumer** works as a statistician for the New York Mets and is finishing a PhD in mathematics at the CUNY Grad Center.

**Tina Chang** has experience in the biotech and pharmaceutical industries and is now studying for a degree in biostatistics at the University of Medicine and Dentistry of New Jersey.

**Matthew Fried** studied both math and risk management. He now is teaching math and statistics classes at Lander College and is creating a hedge fund.
