### STRATEGIES

- Serve on college newspaper staff.
- Develop excellent writing and desktop publishing skills.
- Take courses, minor or double major in journalism, advertising, or English.
- Gain related experience.
- Become a student member of a related professional group.

- Minor in business.
- Get related experience through internships or part-time jobs.
- Obtain leadership role(s) in campus organization(s).
- Develop computer skills in word processing, databases and spreadsheet programs.

### GENERAL INFORMATION

- Philosophy students develop many functional skills which can be transferred from one career/job to another and which can demonstrate the flexibility and capacity for growth that employers find valuable.
- These skills and abilities include analytical, organizational, research, and oral and written communication skills.
- The abilities to generate ideas, formulate and solve problems, integrate diverse data, construct useful analogies, adapt to change, elicit hidden assumptions, persuade people and summarize complicated material are also attractive to employers.

- Undergraduate degree qualifies you for entry-level positions in business, nonprofit organizations, and government.
- Graduate studies usually lead to careers in law, ministry, finance, psychology, counseling, diplomacy, and related areas.
- Ph.D. is required for college/university teaching and research.
- Concentrations with other areas can include philosophy and mathematics, religion, science, history, women, Eastern philosophy, and medical or business ethics.

- Develop aptitudes for analytical thinking, logic and statistics in order to apply philosophy to a broad range of professions such as law, government, finance, management consulting, and related areas.
- Join related student or professional organizations.
- Seek related summer or part-time work experience or internships in area(s) of interest.
- Take computer courses to increase employment opportunities.
