Queens College
Biology Department Colloquium Schedule
Spring 2014 — Wednesdays at 11:00am, NSB D-139

<u>Host</u>

Feb 5   **Isaac Wirgin**, NYU Langone Medical Center - **Biology and Management of Atlantic Sturgeon as Distinct Population Segments**   Waldman

Feb 19 **Janet Nye**, Stony Brook University - **The Role of Basin-scale Oceanographic Processes on the Abundance and Spatial Distribution of Northeast US Fish Stocks**   Waldman

Feb 26 **Lin Mantell**, St. Johns University - **Oxygen, Friend or Foe?***   Zakeri

Mar 5   **Edward Kennelly**, Lehman College - **Medicinal Plants Used by Minority Groups in China**   Lahti

Mar 12 **Elizabeth Alter**, York College - **A Lens into Oceans Past: Molecular Insights into the Ecology and Evolution of Whales**   Waldman

Mar 19 **Jerry Chipuk**, Mount Sinai Hospital - **Life and Death Decisions Involving the BCL-2 Family and Mitochondria***   Zakeri

Mar 26 **Eric Moss**, Rowan University - **Heterochronic Genes and Developmental Time**   Savage-Dunn

Apr 2   **Shige Song**, Queens College - **Evolutionary Theories and Sex Ratio Variations in Humans**   Dennehy

Apr 9   **Joshua Rest, Stony Brook University - Fitness and Modularity of Stochastic Variation in Protein Expression Levels**   Boissinot

Apr 23 **Iva Greenwald**, Columbia University - **Regulation of LIN-12/Notch and LIN-45/Raf During Vulval Cell Fate Patterning in *C. elegans***   Melendez

Apr 30 **Tony Wilson**, Brooklyn College - **Sexual Selection and the Evolution of the Major Histocompatibility Complex**   Lahti

May 7   **Ryan Raaum**, Lehman College - **New Perspectives on Human Evolution in Africa from Population Genomics**   Boissinot

May 14 **Erika Crispo**, Pace University - **The Evolution of Immune Response in Fish Exposed to Varying Levels of Aquatic Pollutants**   Waldman

* MARC-Sponsored
