

# APPLICATIONS NOW OPEN!

Join Google's Computer Science Summer Institute for Summer 2021

**Queens College** is partnering with Google's Computer Science Summer Institute (CSSI) team to host CSSI: Extension! This is a **free** four-week online introduction to computer science (CS) for graduating high school seniors with a passion for technology — especially students from historically marginalized groups in the field including Black, LatinX, Women, and Native American+ students. CSSI: Extension is not your average summer virtual camp. It's an intensive, interactive, hands-on, and exciting program that seeks to inspire the tech leaders and innovators of tomorrow by supporting the study of computer science, software engineering, and other closely-related subjects.

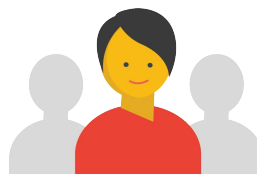

## CSSI Goals

Inspire **PASSION** for technology and computer science.

Create a **COMMUNITY** of peers and mentors to support you throughout your journey.

Increase your **CONFIDENCE** in computer science, a belonging in tech, and success in school.

Develop your computer science and career navigation **SKILLS**.

## Key Information

4 consecutive weeks in the summer between July 12 - August 6, 2021

Program will take place online! Students will be placed in cohorts in United States time zones. (PST / EST)

Students will need a laptop and internet to participate. We will reach out to all accepted students to ensure that they have the right tools to succeed in our program.

## Eligibility & How to Apply

- Admitted to **Queens College** for Fall 2021 and intend to enroll as a first year, full-time student
- Will participate in the virtual program from the U.S., Canada, or Mexico this summer.
- Be able to demonstrate an interest in and motivation for studying computer science
- Complete [online program application](#) by **5/30** (this is in addition to the admission application for **Queens College**)

Submit by **Sunday, May 30th @ 11:59pm**
