3. Chair Yearwood introduced our guest speakers, William Keller, VP for Finance and Administration and Joseph Loughren, AVP for Finance and Budget. VP Keller did a PowerPoint presentation on the budget to show where QC stands as of September 26, 2019. He gave an overview of the Tax-Levy budget Projected final for FY 2019 and Financial Plan for FY 2020. He gave a detailed explanation of the different sources of revenue available and explained where the funding is coming from. Some of the biggest issues related to the budget included setting up a labor reserve, the TAP Gap and other waivers. He also discussed some of the strategies that are being taken to balance the budget for potential savings. Having shown that things are balanced, there are also risks and opportunities that were discussed. One big risk included that at this point we only know what the enrollment was for the fall. One of the things that helped us this year is that the revenue for the summer was a little above than expected. One big opportunity from the enrollment standpoint is to increase both graduate and national student enrollment. VP Keller answered questions from the senators
