Course Descriptions
ECPCE 700: Foundations of School Counseling. 3 hr.; 3 cr. This course is an introduction to the field of school counseling that will provide an overview of the knowledge necessary for preparation as professional school counselors. Some of the topics addressed in this course include: professional and ethical responsibilities, consultation, multicultural and diversity issues, college and career readiness, and the perspectives and practices necessary for school counseling in the 21st century. Candidates will also be introduced to the components required for the development and management of a school counseling program, and the use of data to inform decision-making. In addition, candidates will learn the various roles of a school counselor as leaders, advocates, consultants, coordinators, and collaborators. This course will utilize both theory and the exposure to practitioners in the field to better understand the function as a professional school counselor. As this course facilitates the development of the skills necessary
for counselor training at the graduate level, topics such as research in counseling and scholarly writing will also be addressed.

ECPCE 701: Lab in Self-Awareness. 3 hr.; 3 cr. Taken concurrently with ECPCE 700, this experiential course develops listening, feedback, and communication skills through guided exercises and readings. The small group experience is used to explore and enhance self-awareness of intrapersonal and interpersonal dynamics through a variety of psychological, social, and professional perspectives. It is the basis for the personal and professional development expected of the counselor-in-training. Graded on a Pass/Fail basis only.

ECPCE 702: Theories of Human Development. 3 hr.; 3 cr. This course is a survey of the major theories of personality, cognitive, and social-emotional development through the lifespan. It includes study of family, social and ecological factors as they interact with individual factors to facilitate development. The course emphasizes the application of developmental principles to counseling interventions.

ECPCE 703: Lab in Counseling Techniques. 3 hr.; 3 cr. Taken concurrently with ECPCE 704, this course focuses on developing basic counseling skills with individuals. Emphasis is on creating the core conditions for facilitating the counseling relationship and process, practicing appropriate application of counseling microskills, and coordinating intervention techniques with counselor intentions for therapeutic change. Role plays, video feedback and group discussions as well as other activities will be used. Graded on a Pass/Fail basis only.

ECPCE 704: Counseling Theories 3 hr.; 3 cr. This course surveys the major theories of counseling and psychotherapy. Issues of theoretical assumptions, assessment, treatment, and outcome will be addressed as well as their application to counseling settings and specific clinical populations. Comparison of the various empirically based models of counseling will aim to derive common principles of therapeutic change.

ECPCE 706: Theories of Group Counseling. 3 hr.; 3 cr. This course will provide an overview of the major theories of group counseling with a focus on task groups, psychoeducational groups, and therapy groups. Topics will include techniques of group counseling, group dynamics, developmental stage theories, group process components, types of groups, ethical and legal considerations, leadership styles, as well as research and literature in group counseling and social systems. Experiential exercises will be used to reinforce concepts.

ECPCE 707: Lab in Group Counseling Techniques. 3 hr.; 3 cr. Prereq.: ECPCE 706. This is an experiential course where students practice techniques of group interventions that are taught in the theory part of the course sequence. Students gain experience in developing their own leadership styles and responding to group dynamics. Topics will include techniques of co-facilitation, giving and receiving corrective feedback, and development of group session plans.

ECPCE 729: Practicum in School Counseling. 100 hr. per semester (placement in a school setting, grades K–12); 4 cr. Prereq.: Permission of the advisor, completion of 12 cr. in the program including ECPCE 703. Practicum is a field-based course during which candidates will be placed for 100 hours in a K-12 school setting. During practicum candidates will engage in
activities related to the development, implementation, and evaluation of the elements of the school counseling program (60% of hours) and provide direct student services (40% of hours) with a focus on integrating theoretical concepts with advanced techniques to develop a cohesive approach to counseling. A comprehensive case study is required as part of this course. While on practicum candidates are under the supervision of a school counselor and a Queens College faculty and must attend a course on campus.

ECPCE 801: Career Development and Assessment in School Settings. 3 hr.; 3 cr. This course will introduce candidates to the theory and practice of career counseling, the administration and interpretation of selected inventories, the career counseling process, available career resources, and the ethical and practice standards related to career counseling in school settings. Particular focus will be placed on the career development process of students in grades K-12 and the school counselor’s role in providing developmentally appropriate career development services. As part of this course, issues related to working with diverse populations, (gender, race, culture, ability, and sexual orientation) will be explored.

ECPCE 802: Clinical and Contextual Issues in School Counseling. 3 hr., 3 cr. This course involves the study of clinical and contextual issues in school counseling including depression, substance abuse, suicide, violence in schools and communities, psychological trauma, crisis intervention, and ethics as they relate to educational settings. Particular emphasis is given to issues related to linguistically diverse learners, immigrants, and special needs students. The course will also explore effective counseling strategies and resources in the community. Candidates seeking the Bilingual Extension in SC will complete required assignments with a focus on linguistically diverse learners/bilingual education.

ECPCE 803: Multicultural Issues in Counseling. 3 hr.; 3 cr. This course will introduce students to issues of diversity within the counseling process and society as a whole. As part of this course, students will examine issues related to race, culture, ethnicity, gender, sexual orientation, religion, socioeconomic class, and power. Students will be introduced to ethical and practice standards in the field as they relate to working with the culturally diverse client. A significant aspect of this course is to assist the emerging counselor in developing a deeper self-awareness as an individual and a professional, particularly as it relates to issues of diversity, and the impact of these issues on professional roles.

ECPCE 805: Assessment Methods in School Counseling. 3 hr.; 3 cr. This course covers the principles of assessment methods used in school counseling. There will be a review of basic statistical concepts and educational measurement. The course will survey cognitive, personality, career and educational tests. Assessment and evaluation methods specific to education and to school counseling will be covered. Ecological assessment and program evaluation will be addressed. Critical issues will include factors of culture, gender, linguistic diversity, ethnicity, age, disability, and examiner bias. Candidates seeking the Bilingual Extension in SC will complete required assignments with a focus on linguistically diverse learners/bilingual education.

ECPCE 806: Administration and Organization of School Counseling Programs. 3 hr.; 3 cr. This course covers the role and function of the counselor in school settings; the study of school
structure, policies, and procedures; the development, implementation, and evaluation of counseling and guidance services; issues in consultation, administration, and systemic interventions. The first part of the course describes the regulations and laws that govern student support services. The second portion of the course deals with the New York State “Comprehensive Counseling Program” and the best practices for providing and evaluating complete multi-tiered programs with diverse student populations to including Special Education and linguistically diverse students. Dispersed throughout the course, candidates will see how the use of technology and its application assists the counselor with routine clerical work, record keeping and data driven decisions. Candidates seeking the Bilingual Extension in SC will complete required assignments with a focus on linguistically diverse learners.

ECPCE 807: Research Methods in Counseling. 3 hr.; 3 cr. This course surveys methods of research designs used in psychological, educational, and counseling research and program evaluation. The goals of the course are for candidates to develop a foundation in empirical research to become critical consumers of studies in the counseling literature. Candidates work with the instructor to develop a research project in the candidate’s area of specialization or are involved in direct research activities. Candidates seeking the Bilingual Extension in SC will complete required assignments with a focus on linguistically diverse learners. Ethical considerations, application of research skills to counseling activities, and use of data for program development will also be discussed.

ECPCE 808: Child and Adolescent Counseling. 3 hr.; 3 cr. Prereq.: ECPCE 702, Theories of Human Development or equivalent. This course will focus on the methods, techniques, and issues of counseling children and adolescents. General considerations of developmental stages, family dynamics, school environment and the therapeutic relationship will be discussed. The etiology and assessment of common childhood disorders and empirically supported treatment will be reviewed. Cognitive-behavioral, pharmacological, educational, and ecological interventions will be addressed as well as issues of prevention and community resources.

ECPCE 809: Learning and Motivation in School Counseling. 3 hr.; 3 cr. This course will cover major theories of learning and motivation as they apply to school counseling settings. Principles of attribution, self-efficacy, goal setting, conditioning, and information processing will be applied to student achievement and academic development as well as to the counseling experience as a type of learning process. Emphasis will be placed on the role of the counselor as a consultant to teachers, in support services for students with learning and motivation difficulties, and in psychoeducational and ecological interventions. The course is designed for graduate students to experience their own learning and motivational processes.

ECPCE 810: College and Career Readiness in K-12 Schools. 3 hr.; 3 cr. This course is an introduction and overview to college and career readiness from a holistic and developmental perspective for students in the K-12 setting. Working within a developmental and social justice framework participants will: learn about developmentally appropriate academic and personal needs of students as they transition from elementary through high school; learn about strategies and interventions to facilitate students’ college career readiness at the elementary, middle and secondary school level; learn about and utilize informational resources needed to assist students
with secondary transition planning (included but not limited to identifying postsecondary options, the college application and admissions process, sources of financial assistance); and learn about strategies for working collaboratively with teachers, administrators, parents and other key stakeholders in facilitating student college and career readiness and postsecondary transition. This course will include information and strategies for working with special populations (e.g., undocumented students, ELLs, LGBT, and students with disabilities) on the postsecondary transition planning process.

ECPCE 829: Internship in School Counseling. Internship is a field-based course during which candidates will be placed for 75 to 300 hours per semester in a K-8 or 9-12 school setting. During the program, candidates are required to complete at least 300 hours in a K-8 school setting and at least 300 hours in a 9-12 school setting. While on internship candidates will engage in activities related to the development, implementation, and evaluation of the elements of the school counseling program (60% of hours) and provide direct student services (40% of hours). A case study is required as part of this course. During internship candidates are under supervision of a school counselor and Queens College faculty and must attend a course on campus. Prerequisites: Permission of the advisor and completion of the School Counseling Practicum course, ECPCE 729.4.

ECPCE 829.1. 1 cr. (75 hr.)
ECPCE 829.2. 2 cr. (150 hr.)
ECPCE 829.3. 3 cr. (225 hr.)
ECPCE 829.4. 4 cr. (300 hr.)

7a. Discussion of Resolution for Online tuition and Student Activity Fees

Glenn Burger, Interim Dean of Graduate Studies discussed and received feedback on the following resolution:

Board of Trustees of The City University of New York

RESOLUTION TO

Authorize In-State Tuition Rate for Online Degree Programs and
Authorize an Online Infrastructure Fee

Queens College

March 9, 2020
WHEREAS, Queens College is now delivering certain programs fully online to students, and

WHEREAS, these programs include the Masters of Science of Education (MS Ed) in Family and Consumer Sciences and the Bilingual Extension Advanced Certificate in Elementary and Early Childhood Education, and

WHEREAS, the in-state tuition rate has proven crucial to the competitiveness of these online programs in the national and international online education market, and

WHEREAS, a precedent exists for a modified schedule of tuition and fee charges for fully online programs, since they have already been approved by the Board of Trustees of the City University of New York for fully online programs at John Jay College and the CUNY School of Professional Studies.

NOW, THEREFORE, BE IT

RESOLVED, That the Board of Trustees of the City University of New York adopt a revised schedule of tuition and fee charges effective Fall 2020 for students enrolling in online degree and certificate programs offered by Queens College, whether current or future, to charge all students the graduate in-state tuition rates regardless of residency; and

BE IT FURTHER

RESOLVED, That for students enrolled in these programs at Queens College, the Board of Trustees of the City University of New York authorize a $75 Online Infrastructure Fee and a reduced student activity fee of $15.90 (University Government, College Government, Student Fee, Disabled Students, and NYPIRG fee).

EXPLANATION: The Board of Trustees of the City University of New York have adopted such a schedule of tuition and fee charges for John Jay College and the CUNY School of Professional Studies. The in-state tuition rate has proven crucial to the competitiveness of these online programs in the national and international online education market. As of Fall 2019 Queens College has a fully online MS Ed in Family and Consumer Science, and beginning Spring 2020, this program hopes to begin marketing nationally. The program currently has 25 students enrolled and expects to grow to 80 to 100 as a result of going fully online. The Bilingual Extension Advanced Certificate program, also fully online, is also planning to expand its outreach nationally beginning Fall 2020. Queens College also anticipate developing other new fully online graduate programs over the next several years that will be aimed at national and international markets, as well as within New York State.

The new Online Infrastructure Fee will apply only to students registered in fully online degree programs. This new fee will provide online students with key student services, such as access to student service coordinators dedicated to online students, online
orientation, online tutoring, and an online student portal, that are critical to ensure a high
retention rate in online programs at Queens College.

The Consolidated Service Fee and Technology Fee will continue to be charged to
students in fully online programs.
