PLANNING A COURSE OF STUDY

WHAT IS A MAJOR?
A major is a concentration of study in a department or allied departments. It enables students to concentrate part of their energies on a particular field of learning so they can prepare for the kind of work they are interested in and also prepare for any graduate training that may be necessary for further specialization. A concentration form should be filed in the student’s major department/program, generally by the end of the sophomore year. By doing so, the student is assigned a departmental adviser and is eligible for departmental services such as pre-registration. Further details on departmental and area studies majors can be found in the Queens College Undergraduate Bulletin and on the college web site.

An interdisciplinary major cuts across academic disciplines and enables students to design a program of study for the major that is suited to their individual needs and interests.

WHY CHOOSE A FRENCH MAJOR?
The French language, spoken by over 300 million people in over 40 countries, plays an important role in global business, diplomacy, and culture. Moreover, the French and Francophone literary and philosophical tradition has had a profound influence on American society and its institutions. Language courses offered in the Queens College French Program help students develop proficiency in the French language while advanced level courses in literature and culture introduce students to the French and Francophone tradition in literature and the arts. Through the advanced instruction in literature and language, students are encouraged to develop a critical approach to literary texts in French, the French language, and French and Francophone cultures.

Successful French majors sometimes pursue Master’s degrees at Queens College and go on to teaching careers, careers in business or government, or pursue doctoral degrees in French or Comparative Literature at the CUNY Graduate Center or elsewhere.

PLANS AFTER GRADUATION

EMPLOYMENT IN THE PRIVATE SECTOR
French majors and minors who wish to pursue careers in business are advised to take courses in the Business and Liberal Arts program at Queens College. The Queens College Office of Career Development can assist you in exploring fields, identifying potential employers, and preparing for interviews. An internship (even unpaid) during college provides useful professional experience and sometimes leads to full-time employment after graduation.

GOVERNMENT AND NON-GOVERNMENTAL ORGANIZATIONS
Non-governmental organizations, government and the private sector are sources of employment or internships for students interested in international work. From the Peace Corps to the Department of State, many job listings for federal agencies are posted at https://www.usajobs.gov/Help/working-in-government/unique-hiring-paths/students/ Other officer-level positions in federal agencies are offered after a competitive exam and interview process. Consult the web sites of individual agencies or organizations for details. Seek out internships during college to gain experience in the area you wish to work. Discuss your career plans with your professors and advisers and visit the Queens College Office of Career Development and Internships (Frese Hall 213) as early as possible to identify possible employers and learn job seeking skills. Sometimes students or graduates who begin as unpaid interns in NGOs are hired by organizations when positions become available. If you really want to work in a particular arena or for a specific organization, many career counselors recommend beginning as an unpaid volunteer and keeping your eyes open for full-time paid positions.

GRADUATE STUDY
French majors interested in earning a Master's or Ph.D. in French Literature should discuss their plans as early as possible with the graduate adviser (see p. 7, Accelerated BA/MA). The application fee is waived for CUNY undergraduates applying to CUNY Graduate Center Ph.D. programs. Only the most successful students are admitted into graduate programs, so you must do very high-quality work (especially in 300-level courses) and let your professors get to know you by visiting their office hours. It is impossible to write a good letter of recommendation if one does not know the student well. In addition to taking as many upper-level electives in literature as possible, and, if applying to a PhD program, completing a senior thesis, students should save digital copies of their written assignments from French literature courses. These can help professors draft the detailed letters of recommendation needed to gain admission to M.A./Ph.D. programs. Many programs require students to take the GRE in French upon applying. The QC Office of Career Development and Internships offers guidance to students applying to graduate school. http://www.qc.cuny.edu/StudentLife/services/career/Pages/default.aspx

TRANSLATION AND INTERPRETATION
Caveat emptor! It is extremely difficult to earn a living as a full-time translator. Nonetheless, translators are in high demand. Indeed, machine translation is not going to replace human translators anytime soon because translation is much more than word substitution. In addition to high-level proficiency in French and an awareness of cultural differences, a translator needs an excellent command of the English vocabulary and grammar, and excellent writing skills. Interpreters are needed in hospitals, schools, courts, social services, politics, and in international law and business. Moreover, employees with a second language have a better chance of keeping their jobs when companies downsize, merge, or lay off. https://www.atanet.org, http://www.literarytranslators.org/

ENGLISH LANGUAGE TEACHING ASSISTANTSHIP IN FRANCE
Teaching Assistantship Program in France (TAPIF). Live in France and gain experience leading conversation classes in English in a French elementary, middle, or secondary school. English language teaching assistants teach 12 hours per week and receive about $1,000/month plus health insurance. A full-year (Sept.-May) commitment is required. Maximum: 2 years. TEACHING AT THE HIGH SCHOOL LEVEL
Although parochial and private schools may not require teachers to be certified by the state of New York, public school teachers must obtain New York State Certification.

In order to obtain initial NY State Certification* as a high school teacher of French:

- Complete an undergraduate major in French 7-12 (code FREN712-BA), which includes 36 credits of French and 24 credits in Secondary Education (including Student Teaching), and earn an Undergraduate Initial Teaching Certification (Grades 7-12)

OR

- Complete an undergraduate major in French (36 credits), and then take 21 post-bac credits in Secondary Education, to earn a Graduate Initial Teaching Certification (Grades 7-12)

You should contact the Department of Secondary Education and Youth Services (SEYS) at your earliest convenience. For further information, contact Professor Professor Jennifer Eddy, SEYS adviser. Jennifer.Eddy@qc.cuny.edu
http://www.qc.cuny.edu/Academics/Degrees/Education/SEYS/Programs/Pages/ForeignLanguageEducation.aspx
http://www.qc.cuny.edu/Academics/Degrees/Education/Elementary/GraduatePrograms/Pages/MsEdExtReq.aspx

Students must also:

1) Achieve a score of “advanced low” or higher on the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT), both in French.
2) Pass state-required Teacher Certification Exams: LAST (Liberal Arts and Sciences Test), ATS-W (Assessment of Teaching Skills Written Test), CST (Content Specialty Test) (information on Content Specialty Test at www.nystce.nescinc.com; some students find the Amsco French Three Years Review Text and Workbook helpful in preparing for the Content Specialty Test)
3) Complete a series of state-required workshops.
4) All students seeking teaching certification must compile and present a portfolio of their coursework. Save all your work (digital or print copies). Meet with your advisers early in your major to discuss format and requirements for student portfolios.

*NY State requirements change often, so students are advised to consult the NY State Department of Education web site: http://www.highered.nysed.gov/tcert/ for the most up to date information.
TEACHING AT THE ELEMENTARY AND EARLY CHILDHOOD LEVEL
Unfortunately, French and other languages other than English are not taught in most elementary and early childhood schools. Nonetheless, there have been a number of bilingual or dual-language initiatives in the Metropolitan area and it is possible to use your proficiency in French while teaching at the elementary level. In order to do so, students are advised to complete an undergraduate dual major in French and Elementary Education or a dual major in French and Early Childhood Education. This will give you a BA in French and Elementary Education and lead to New York State certification in Elementary Education (Grades 1 through 6) or Early Childhood Education.

Since elementary school and Early Childhood Education teachers are required to obtain Master’s degrees, after obtaining your BA in French and Education, you can pursue

- a Master of Science in Teaching in Early Childhood Education with Bilingual Extension
  http://www.qc.cuny.edu/Academics/Degrees/Education/Elementary/GraduatePrograms/Pages/MsEdExtReq

OR

- a Master of Arts in Teaching in Childhood Education. Even without the Bilingual extension, several graduates from this program who were fluent in a second language have been hired by dual-language schools.

OR

- a Master of Arts in Teaching in Early Childhood Education
