

Spring 2021 SEMINAR SCHEDULE

Seminars will be held on Mondays at 11:15am

If you would like to receive a Zoom link for a seminar, please email the department at

Elizabeth.Zoiner@qc.cuny.edu

Date	Presenter	Institution	Title	Host
FEB 1	Felix Castellano	North Carolina State University	"From Molecules to Materials: Triplets Are Everywhere."	Chen Wang
FEB 8	James McCusker	Michigan State University	"Photo-redox Catalysis: Basic Principles and the Challenge of Earth-abundant Materials."	Chen Wang
FEB 22	Eric Borguet	Temple University	"Understanding Water Organization at Charged Surfaces."	Chen Wang
MAR 1	Weiwei Xie	Rutgers	TBD	Chen Wang
MAR 8	Andreas Gahlmann	University of Virginia	"Visualizing Bacterial Physiology at High Resolution using Single-Molecule Tracking and Lattice-Light Sheet Microscopy."	Chen Wang
MAR 15	Luxi Li	Brookhaven National Laboratory	TBD	Chen Wang
MAR 22	Justin Caram	University of California, Los Angeles	TBD	Chen Wang
APR 5	Akira Kawamura	Hunter College – CUNY	TBD	Susan Rotenberg
APR 12	Sagar Khare	Rutgers University	"Modeling in the time of COVID-19: Evolution of the SARS-CoV-2 Proteome in Three Dimensions."	Susan Rotenberg
APR 19	Radhika Subramanian	Harvard Medical School	TBD	Susan Rotenberg
APR 26	Ryan Williams	City College-CUNY	"Translational Nanomedicine to Treat and Diagnose Cancer and Related Diseases."	Susan Rotenberg
MAY 10	Mia Huang (QC '07)	Scripps Research Institute	"How to Tame a Glycoconjugate."	Susan Rotenberg
MAY 17	Michelle Francl	Bryn Mawr College	"Molecular Monsters: Designing Molecules with Möbius Structural Topology."	Susan Rotenberg
