

**Spring 2019 Seminars**

<b>Date</b>	<b>Presenter</b>	<b>Institution</b>	<b>Title</b>	<b>Host</b>
Feb. 4	Bingjun Xu	University of Delaware	<i>Achieving Molecular Level Understanding of Electrocatalytic Processes</i>	Chen Wang
Feb. 11	Yuxiang Mo	Tsinghua University	<i>Mass spectrometry imaging based on VUV laser desorption/ionization technique: a new instrument and its applications</i>	Jianbo Liu
Feb. 25	Haw Yang	Princeton University	<i>Real-Time 3D Single-Particle Tracking: Spectroscopy, Imaging, and Control</i>	Chen Wang
Mar. 11	Guijun Wang	Old Dominion University	<i>TBA</i>	Jianbo Liu
Mar. 18	Tomoyasu Mani	University of Connecticut	<i>TBA</i>	Chen Wang
Mar. 25	Joaquín Rodríguez López	University of Illinois Urbana-Champaign	<i>Elucidating Electrochemical Energy Materials through Versatile Electrochemistry</i>	Michael Mirkin
Apr. 1	Dan Steingart	Princeton University	<i>TBA</i>	Michael Mirkin
Apr. 8	Joshua Schrier	Fordham University	<i>Accelerating exploratory materials synthesis with machine learning (and robots)</i>	Seogjoo Jang
Apr. 15	Peng Chen	Cornell University	<i>TBA</i>	Michael Mirkin
Apr. 29	Amit Banerjee	University of Pennsylvania	<i>TBA</i>	Susan Rotenberg
May 6	Haribabu Arthanari	Harvard medical School	<i>TBA</i>	Sanjai Pathak
May 13	Kwok-Fan Chow	University of Massachusetts Lowell	<i>TBA</i>	Michael Mirkin
