BIOSKETCH

Date of preparation

January 27, 2015

Personal Data

Birthdate: 2 November 1952

Citizenship: USA

Languages: English, French, Spanish, Portuguese, Italian, German, Latin, Ancient Greek

Academic training

Baccalaureate type A, classical section (majors in Greek and Latin)	Calvin College, Geneva	1971
MD	School of Medicine, Geneva	1978
Doctor in Medicine	School of Medicine, Geneva	1982
Master in Public Health	The Johns Hopkins University School of Public Health, Baltimore, MD	1987
PhD	The Johns Hopkins University School of Public Health, Baltimore, MD	1989
Master in Science- Biostatistics	The Johns Hopkins University School of Public Health, Baltimore, MD	1990
Privat Docent (= Lecturer) in Epidemiology	School of Medicine, Geneva	1993

Trainingship

1978-1982 Residency, Internal Medicine, University Hospitals of Geneva
 1982-1985 Senior Resident, Occupational Medicine, Institute of Social and Preventive Medicine,
 School of Medicine, Geneva. Joint appointment, Division of Respiratory Diseases,
 University Hospital of Geneva
 1985-1986 Fellowship, Gastroenterology, University Hospitals of Geneva
 1986-1990 Doctoral Student. The Johns Hopkins University School of Hygiene and Public Health,
 Baltimore, MD
 1989-1990 Post-doctoral fellowship in Epidemiology, American Health Foundation, New York

Board certification

Specialist (Board certification) in Internal Medicine, 1990.
 Sub-Specialty in Occupational Medicine, 1990

Military service

No

Professional organizations and societies

Swiss Medical Association (FMH), 1991-2006
 Geneva Medical Association (AMG), 1991-2006
 Society for Epidemiologic Research, 1986-present
 Swiss Society of Public Health, 1984-2005
 American Public Health Association, 1986-2005
 Swiss Society of Internal Medicine, 1990-2006
 Swiss Society of Occupational Medicine, 1995-2006
 Association des Epidémiologistes de Langue Française (ADELF, Association of French-Speaking Epidemiologists), *Vice-president*, 2002-2006
 International Society for Environmental Epidemiology (ISEE), 2012

Academic appointments

1991-1996 Adjunct Assistant Professor, Columbia University, School of Public Health, Division of Epidemiology, New York, NY
 1991-1996 Adjunct Assistant Professor, Mount Sinai Medical Center, Division of Community Medicine, New York, NY
 1993-2000 Lecturer in Epidemiology - School of Medicine, Geneva
 1993 Adjunct Associate Professor of Clinical Epidemiology at Penn State University, College of Medicine, Hershey, PA
 1993(10-12) Visiting Associate Professor of Clinical Epidemiology at Penn State University, College of Medicine, Hershey, PA
 1996-2000 Adjunct Associate Professor of Public Health (Epidemiology), Columbia University, School of Public Health, Division of Epidemiology, New York, NY
 1996-2000 Adjunct Associate Professor, Mount Sinai Medical Center, Division of Community Medicine, New York, NY
 1996(11-12) Visiting Professor, Department of Community Medicine, Mount Sinai Medical Center.
 2001-2005 Professor of Clinical Epidemiology, School of Medicine, Geneva
 2001-2010 Adjunct Professor, Preventive Medicine, Mount Sinai School of Medicine, New York.

Current positions

2000-present Professor of Clinical Public Health (Epidemiology), Columbia University, School of Public Health, Division of Epidemiology, New York, NY
 2006-present Professor of Epidemiology, School of Earth and Environmental Sciences and Center for the Biology of Natural Systems, Queens College, City University of New York, Flushing, NY
 2008-present Professor, Department of Epidemiology, The Bloomberg School of Public Health, The Johns Hopkins University, Baltimore, MD
 2011-present Adjunct Professor, Preventive Medicine, Mount Sinai School of Medicine, New York.

Hospital appointments

1990-1994 Director, Clinical Epidemiology Unit. University Hospitals of Geneva, Switzerland

1995-2005 Director, Clinical Epidemiology Division, University Hospitals of Geneva, Switzerland

Honors

- 1985 Tissot Award, School of Medicine, University of Geneva for MORABIA A. The Italian system of primary prevention on the workplace. Theoretical model and applications (in French). Cahier Ecotra No5, Geneva, 1984.
- 1988 Student workshop of the Society for Epidemiologic Research, Vancouver, Canada
- 1989 Marilyn Spivak Menkes Award. Department of Epidemiology, The Johns Hopkins University School of Public Health, Baltimore, MD
- 1989 Tissot Award, School of Medicine, University of Geneva (in collaboration with F.D. Giezendanner and E. Sheybani).
- 1996 Member of the Delta Omega-Alpha Chapter, The Honorary Public Health Society, The Johns Hopkins University School of Public Health, Baltimore, MD
- 1999 Novartis Prize for the best free communication: Junod N, Morabia A, de Torrente A. Resuscitation orders: influence of physician information and of new guidelines on physician behavior ». Swiss Society of Internal Medicine, Basle
- 2001-2006 Member of the Dean's Alumni Advisory Council of the Johns Hopkins Bloomberg School of Public Health, Baltimore, MD
- 2001-2002 Member, Commission Technique de l'Institut Scientifique et Technique de la Nutrition et de l'Alimentation (ISTNA), Conservatoire National des Arts et Métiers, Paris, France
- 2002-2007 Vice president. Association des épidémiologistes de langue française (Association of French-Speaking Epidemiologists).
- 2009 Scientific Nestlé Swiss Nutrition Award for paper on 12-year trends and correlates of dietary salt intakes in the Eur J Clin Nutrition
- 2009-present Chair, Committee, Columbia University Epidemiology Grand Rounds (CUEGR)
- 2011- Member, CUNY University-Integrated IRB
- 2013 "Advice to young scientists," Erasmus Medical Center (August 30), Netherlands Institute for Health Sciences Graduation Ceremony
- 2013 Keynote lecturer, "Hundred years (and more) of epidemiology at Harvard." First Cutter Symposium, Harvard School of Public Health.

Fellowship and grant support

(NB: -Swiss National Research Council is the Swiss equivalent to the US NIH.)

Year	Position	Title	Granting agency	Costs (no indirect costs non US grants)	
				CHF	USD
1986-1989	Principal Investigator	Fellowship	Swiss National Research Council (FNRS)		170,000
1990	Principal Investigator	"Beta Blocker prescription in patients with acute myocardial infarct"	Ciba-Geigy	35'000	23,000
1991	Principal	"Drug prescription in	Hoffman-La Roche SA	5'000	3,500

	Investigator	ambulatory practice"			
1991-1992	Principal Investigator	"Development and validation of a food frequency questionnaire"	Swiss National Research Council (FNRS) and Geneva Health Department (DPSSP)	61'190	40,800
1991-1993	Principal Investigator	"A population-based case-control study of smoking and breast cancer"	Swiss National Research Council (FNRS 32.31.326.91) and Dumont and Moerlen Foundation	222'750	148,500
1992	Principal Investigator	"Osteoporosis and nutrition, Cross-sectional study of the Swiss population"	Geneva Health Department (DPSSP)	6'300	4,200
1992	Principal Investigator	"Major epidemics of the 20th century in Canton Geneva"	Geneva Health Department (DPSSP)	12'314	8,200
1992	Co-Principal Investigator	"Physical activity and cardiovascular diseases"	League of Canton Vaud against Cardiovascular Diseases"	12'000	8,000
1993	Principal Investigator	"Development and validation of a self-administered physical activity questionnaire to be used in population-based surveys"	Swiss National Research Council (FNRS 32-37986.93) and Geneva Department of Health (DASS)	238'000	158,700
1993	Co-Principal Investigator	"Epidemiology of menopause in Canton, Geneva"	University Hospitals of Geneva	20'000	13,000
1994	Principal Investigator	"Breast cancer, smoking and estrogen receptors"	Dumont and Moerlen Foundation	12'750	8,500
1994	Principal Investigator	"Differences in dietary habits at home and at restaurants"	Societe genevoise des cafetiers et restaurateurs	7'500	5,000
1994	Principal Investigator	"International comparison of risk factors for breast cancer"	Geneva Cancer League	11'605	7,700
1994		"Reproductive habits of the general population of Geneva in 1983-1993"	Swiss National Research Council (FNRS)	15'000	10,000

1995	Co-Principal Investigator	“Long-term effects of an epidemic of Q-Fever in a Swiss Alpine Valley”	Swiss Academy of Medical Sciences	80'000	53,300
1995	Co-Principal Investigator	“The management of post-operative nausea and vomiting: an epidemiological investigation in Switzerland 1995”	Glaxo	18'000	12,000
1995	Principal Investigator	“The relation of height and body mass to breast cancer: a case-control study”	Dumont and Moerlen Foundation	12'000	8,000
1995	Principal Investigator	“Study of risk factors for ischemic heart disease using a population-based cohort study design”	Swiss Cardiology Foundation	40'000	26,700
1995	Principal Investigator	“A simulation study of spectrum bias”	Safra Funds	50'000	33,300
1995	Principal Investigator	“A validation study of a questionnaire on cigarette smoking using salivary biomarkers”	Geneva Department of Health (DASS)	100'000	66,700
1995	Principal Investigator	“International comparison of timing of reproductive events”	Geneva Cancer League	24'000	16,000
1995	Principal Investigator	“Socio-economic differences in dietary habits in a random sample of the Geneva population”	Federal Office of Public Health	12'000	8,000
1996	Principal Investigator	An international workshop on: “A population-based cohort study of environmental, biochemical and genetic risk factors of coronary heart disease”	Swiss National Research Council (FNRS# 32-46142-95) and Geneva Department of Health (DASS)	12'000	8,000
1996	Co-Principal Investigator (PI: Dr. Letizia Toscani)	“Evaluation of a computer program to support medical prevention in a clinical setting”	Swiss Academy of Medical Sciences	32'500	21,700

1996	Principal Investigator	“Passive smoking, N acetyltransferase genetic polymorphisms and breast cancer risk”	Swiss National Research Council (FNRS-32-47219.96) and Dumont and Moerlen Foundation	107'524	71,700
1996	Principal Investigator	“Prevalence of simultaneous exposure to genetic and environmental risk factors in the general population of Canton Geneva”	Geneva Cancer League, Geneva League against Tuberculosis and Respiratory Diseases	116'000	77,300
1997	Project director	“Risk factor surveillance in the community: Coordination and evaluation of an information campaign about variability of diet and nutrition in the European Community - EURALIM”	European Community, DG V/F/1, Public Health		530,520
1997	Co-Principal Investigator	“Epidemiological study of status epilepticus: incidence rate, risk factors, medical management, prognosis and cost. Collaborative study in six Swiss French-speaking cantons”	Swiss National Research Council (FNRS-3200-049844.96)	108'000	72,000
1997	Principal Investigator	“Impact of the epidemic of bovine spongiform encephalopathy (BSE) crisis on the diet of the general population of a Swiss, urban Canton”	Swiss National Research Council (FNRS-32-49847.96)	123'750	82,500
1997	Principal Investigator	“Comparison of breast cancer risk factors between Shanghai and Geneva”	Geneva Cancer League	10'953	7,300
1998	Co-Principal Investigator	“Effects of physical activity on lipid profile according to APOE and CETP polymorphism: a population-based evaluation of a gene-environment interaction”	Swiss National Research Council (FNRS 3200-054097.98)	200'700	13,800
1998	Co-Principal Investigator	“Clinical Epidemiology of nocturnal dry cough in children and anesthetic implications”	Swiss National Research Council (FNRS 3200-053734.98/1)	56'700	37,800
1999	Principal Investigator	“Alcool, anti-inflammatoires et cancer du sein”	Dumont and Moerlen Foundation		10,625

1999	Principal Investigator	“Cardiovascular Risk Factors and Social Inequalities: Distribution and trends from 1992 to 2000 in Geneva; Validation of Social Class Indicators; Comparison with the Swiss Health Survey”	Swiss National Research Council (FNRS 32-57104.99)	140'000	93,300
2000	Principal Investigator	“Differences de survie selon le statut tabagique de patientes souffrant d'un cancer du sein	Dumont and Moerlen Foundation	25'000	13,900
2001	Principal Investigator	“Tabac et cancer du sein, 1997-2001”	Dumont and Moerlen Foundation		10,160
2002	Principal Investigator	“A population-based study of gene-environment interaction, involving physical activity, candidate genetic pathways and blood lipids”	Swiss National Research Council (FNRS 3200-068275.02)		111,330
2003	Principal Investigator	“Workshop: Assessment and analysis of complex molecular pathways”	Swiss National Research Council (FNRS 32COBO-101238.1)	5'000	3,300
2003	Principal Investigator	“Sante, mobilite et bien-etre”	Geneva Department of Health (DASS)		17,360
2003	Principal Investigator	“5eme rapport sur la nutrition en Suisse”	Federal Office of Public Health		12,139
2004	Principal Investigator	“Hormone replacement therapy and the risk of lobular, ductal and other histologic types of breast cancer”	Dumont and Moerlen Foundation		18,263
2004	Principal Investigator	“Prevalence of atrial fibrillation in the Geneva population”	La Tour Foundation for Cardiovascular Research	210'000	175,000
2005-2009	Principal Investigator	“A longitudinal study of the relative contributions of genes, environment and interactions to blood lipid variations”	Swiss National Research Council (FNRS 3247B0-108422)	300'000	250,000
2005	Co-Investigator (5%)	“Beta2-adrenoceptor genotype and preterm labor”	NIH		323,610
2006-2010	Co-Principal Investigator	“Cohort and case-parent triad studies of gene and gene-environment interactions in	Swiss National Research Foundation (FNRS 3247B0-111910/1)	227'000	180,000

		pediatric post-operative pain”			
2007	Epidemiologist	“Former Worker Surveillance Program”	US Department of Energy (DE-FC01-06EH06008)		3,241,40
2007	Epidemiologist	“Medical Surveillance of Former DOE Workers”	US Department of Energy (DE-FC01-06EH06018)		706,447
2008	Epidemiologist	“Development and implementation of a research plan to characterize neighborhood and street level air quality in New York City”	NYC Depart of Health and Mental Hygiene (PIN07EN1326 01R0A01)		1,019,00
2008	Co-Investigator	“Environmental and Behavioral Impact on Global Hypomethylation and Gene-Specific Hypermethylation in Healthy Individuals”	Institute for Cancer Research at UNT Health Science Center& Joe and Jessie Crump Fund for Medical Education		30,000
2008	Co-Investigator	“Behavioral Determinants of Methylation Abnormalities: A Pilot Study of Potential Markers for Cancer Prevention and Control”	School of Public Health Seed Program at UNT Health Science Center		20,000
2008-2009	Principal Investigator	“SWITCH-PILOT: Changes in Physical Activity and Personal Exposure to Fine Particle Pollution (PM 2.5) Related to Switching from Car to Public Transportation when Commuting to Work. A Pilot Study.”	Office of the President, Queens College, City University of New York		20,000
2009-2010	Principal Investigator	“COMIR: Commuting mode and inflammatory response”	CUNY Collaborative Incentive Grant. CIRG 1606		60,000
2011-2014	Principal Investigator	WTC-Heart: A Cohort Study of Heart Diseases in World Trade Center Responders	NIOSH		1,500,00
2012-2015	Principal Investigator	History of Epidemiology: Evolution and Contribution to Medicine and Public Health	G13 LM010884-01A1 NIH/NLM		150,000
2012-2013	Co-Principal Investigator	“Empowering Individuals to Make Environmentally Sustainable and Healthy	Region II University Transportation Research		80,000

		Transportation Choices in Mega-Cities through a Smartphone App”	Center		
2014-2016	Principal Investigator	WTC-Heart: A Cohort Study of Heart Diseases in World Trade Center Responders	1U01 OH010722		1,000,00

Scientific Committees

- 1993-1998 President of the Monitoring Committee. Swiss multicenter evaluation of early angioplasty for shock following myocardial infarction (SMASH).
- 1994-1996 Member of the Safety Committee. (FRAXODI). Sanofi-Winthrop, France.
- 1995-1998 Member of the Data and Safety Monitoring Committee. A randomized controlled trial for the evaluation of a new antenatal care model. World Health Organization, Geneva, Switzerland.
- 1997-1998 Chair, UNAIDS Data and Safety Board, World Health Organization, Geneva, Switzerland.
- 1997-2000 Member, Scientific Committee, Italian Cochrane Center.
- 1998-1999 Member, Working Group on Public Health Approaches to the Prevention of Obesity (PHAPO) of the International Obesity Task Force
- 2001-2002 Co-chair, External Reference Group of the “New Non-Communicable Disease strategy development process”, World Health Organization, Geneva, Switzerland.
- 2004 to 2005 Membre, Comité Directeur, Certificat de formation continue en Recherche clinique orientée patients, Geneva University.
- 2013 - Scientific Advisory Board (SAB) of the Institute for Epidemiology, Biostatistics and Public Health of the University of Zurich
- 2014 - Council for the History of Epidemiology

Teaching Experience and Responsibilities

- 1985 Teaching of occupational health and social-security medicine to medical students School of Medicine, University of Geneva.
- 1987 Teaching assistant. Epidemiology of Diet and Chronic Disease. The Johns Hopkins University School of Hygiene and Public Health, Baltimore, MD
- 1988 Teaching assistant. Epidemiologic Methods 2. The Johns Hopkins University School of Hygiene and Public Health, Baltimore, MD
- 1989 Instructor. Principles of Epidemiology 2: Advanced methods in epidemiology. Division of Epidemiology, Columbia University School of Public Health, New York, NY
- 1990 Instructor. Advanced method in Epidemiology. Division of Epidemiology, Columbia University School of Public Health, New York, NY
- 1990 Instructor. Epidemiology course to 4th year medical students. School of Medicine, Geneva.
- 1990-2001 Invited lecturer. Principles of Epidemiology 2: Advanced methods in epidemiology. Division of Epidemiology, Columbia University School of Public Health, New York, NY
- 1993 Invited instructor. Graduate Summer Program in Epidemiology. The Johns Hopkins University School of Public Health, Baltimore, MD
- 1993 Course Director. Postgraduate Course of epidemiology and biostatistics: « Separating out the effects of multiple causes ». University Hospitals of Geneva.

- 1993-2005 Course Director. Epidemiology to medical students. School of Medicine, Geneva.
- 1993-2004 Invited lecturer. Postgraduate Course of Clinical Epidemiology. University of Zurich.
- 1994-1998 Lecturer of epidemiology. Postgraduate Course of statistics. University of Neuchâtel.
- 1995 Course Director. Postgraduate Course of epidemiology and biostatistics: « Interactions of effects and subgroups analysis ». University Hospitals of Geneva
- 1995-1997 Faculty. Course of General Internal Medicine. School of Medicine. Geneva.
- 1995-2005 New medical school curriculum. Member of the working group "Clinical skills and community dimensions". School of Medicine, Geneva.
- 1998-2005 Responsible of the module "Introduction to clinical research", Certificate in Health Administration. University Hospitals of Geneva.
- 1998 Organizer. Postgraduate course in epidemiology and biostatistics: "Genetic epidemiology". University Hospitals of Geneva.
- 1998 Advanced methods in epidemiology. One-week Mphil Epidemiology Course. University of Cape Town, South Africa, February.
- 1998 Analysis of longitudinal data. Co-Lecturer. Annual meeting of the Swiss Statistical Society, Villars, Switzerland, 2-4 March.
- 2002-3 "Clinical Epidemiology". European School of Epidemiology. Florence, Italy.
- 2004 Instructor. Course: "Advanced Methods in Epidemiology: History and concepts". Swiss Master in Public Health Program.
- 2005-present Instructor. Course: "History of Epidemiologic Ideas". Erasmus Summer Program of Epidemiology. Rotterdam
- 2006-present Instructor. Course: "Advanced Methods in Epidemiology: History and concepts". Swiss Master in Public Health Program.
- 2006-2012 Instructor. Course: "Introduction à la recherche Clinique". Master en Management des Institutions de Santé. Geneva.
- 2006-2012 Instructor. Course: "Epidemiology 1". Summer semester. Columbia University Mailman School of Public Health, NY.
- 2008 Instructor. Course: "How to prepare a grant proposal". Swiss School of Public Health.
- 2008 Course: "History of Epidemiologic Methods and Concepts". Hopkins Summer Institute. The Bloomberg School of Public Health, Baltimore, MD
- 2010-present Instructor. Course: "History of Epidemiologic Ideas". Fall semester. Columbia University Mailman School of Public Health, NY.

Theses Advisor

- 1995 Isabelle Kammerlander-Reymond. Is menopausae a risk factor for coronary heart disease? MD Thesis n°9594. University of Geneva.
- 1996 Catherine Suter-Weyrich. Long term follow up of asymptomatic subjects having undergone a trademill test in a sport medicine clinic. MD Thesis n° 9721. University of Geneva.
- 1996 Isabelle Huot. Comparison of dietary habits and cardiovascular mortality in Montreal and Geneva. Master in Nutritional Sciences. University of Montreal.
- 1997 Catherine Goehring. Benign breast disease: a review of the literature and a case-control study. MD Thesis n°9835. University of Geneva.
- 1998 Pierres-Yves Lovey. Long-term effects of an epidemic of Q-Fever in a Swiss Alpine Valley. MD Thesis n°9968. University of Geneva.
- 1999 Sonia Billard-Fattah. Towards a new organisation of the database of the Division of clinical epidemiology. Master in computer sciences Thesis. National Center for Arts and Sciences (CNAM), Lyon, France.
- 1999 Sylvie Antonini-Revaz. Evaluation de la prescription médicamenteuse à la Policlinique de médecine de Genève en 1997. MD Thesis n°10073. University of Geneva.

2012 Steven Markowitz, MD. Asbestos, Asbestosis, Smoking and Lung Cancer. Untangling the Web in the North American Insulator Cohort (2,609). DrPH Dissertation. Columbia University Mailman School of Public Health, NY

Doctoral Dissertation Committee

2007 Chair. Fang Fang Zhang, MD. Genetic polymorphisms in folate and alcohol metabolism, nutrients and the risk of stomach cancer: A pathway approach. PhD Dissertation. Columbia University Mailman School of Public Health, NY

2010 Chair. Maria Argos, MPH. Genetic Susceptibility to Arsenic Exposure and Arsenical Skin Lesion Prevalence in Bangladesh. PhD Dissertation. Columbia University Mailman School of Public Health, NY

2013- Chair. Shannon Farley. Unavoidable Environmental Tobacco Exposures In And Out Of The Home. Epidemiology and Biostatistics Program. CUNY School of Public Health.

2013 Member. Caroline Wazer. Salus patriae: Public health in the early Roman empire. Columbia University Department of History.

Mentoring

2011-present Ryan Demmer, PhD, Assistant Professor, Department of Epidemiology, Columbia University Mailman School of Public Health, NY

Practicum Mentor, DrPH Program:

2013- present Mila Gonzalez, Victor Puac Polanco, Julian Santaella: Salud Pública Global. Creating a Public Health Blog in Spanish to reach Latino audiences in the US and the Americas. Department of Epidemiology, Columbia University Mailman School of Public Health, NY.

Other professional activities

Editorial Boards

- American Journal of Public Health, Associate International Editor, 1999-2001
- International Journal of Public Health (formerly Sozial- und Präventiv Medizin), Co-Editor-in-Chief, 2000-2006, Editorial Board since 2007.
- Preventive Medicine (Consultant to the Editorial Board since 1991. Associate Editor since 1994. Chief Editor, 2005-2012, Editor Emeritus since 2013)
- Journal of Women's Cancer, Editorial board since 1997
- Médecine et Hygiène, Editorial Board, 2002-2005.
- European Journal of Epidemiology, Editorial Board since 2004
- The European Journal of Cancer Prevention, Editorial Board 2004-2007
- The Journal of Clinical Epidemiology, Editorial Board since 2005
- Associate Editor of the James Lind Library (www.jameslindlibrary.org) since 2006
- International Advisory Board, Journal of Epidemiology and Community Health
- Editor, People's Epidemiology Library (<http://www.epidemiology.ch/history/PeopleEpidemiologyLibrary>), since 2011
- American Journal of Epidemiology, Associate Editor (July-November) 2012
- American Journal of Epidemiology, Editorial Board, since December 2012

- Salud Pública Global, Editor Académico (<http://saludpublicaglobal.org/editores/>) desde Septiembre 2014

Peer Review of Grant

2013 National Library of Medicine /NIH G13 Grant Review

Consultative

- 1992-2005 Member, Committee of the Dumont and Moerlen Foundation.
- 1992-1996 Member, National Ethical Committee (UREK).
- 1993-1994 Member, National Committee for data protection in medical research.
- 1996-2005 Member, Editorial Board, Editions Médecine et Hygiène, Département de livre Georg.

Lectures, Courses, Conferences (most recent)

2009			
Jan 28	Public, health and knowledge: a historical perspective	Swiss School of Public Health, Symposium in honor of Ursula Ackermann and Fred Paccaud	Zurich, Switzerland
April 1	Facts, artifacts and counterfacts: a history of confounding	Yale School of Public Health	New Haven, USA
May 29	Epidemics in China	The Columbia Mailman School of Public health	
August 17-21	History of epidemiologic ideas	Erasmus Summer Program	Rotterdam, The Netherlands
November 17	When triumphant epidemics finally met epidemiology	Symposium for the 40 years of epidemiology at Erasmus	Rotterdam, The Netherlands
December 2	When triumphant epidemics finally met epidemiology	Department of Epidemiology, Harvard School of Public Health	Boston, MA, USA
2010			
February 22	Can the Way You Commute to Queens College Have Consequences for Your Health?	School of Earth and Environmental Sciences, Queens College	New York, NY, USA
April 20	Ethics in Epidemiologic Research	University of California, Berkeley, School of Public Health	San Francisco, CA, USA
April 20	Attributing Causes of Diseases: A History	University of California, Berkeley, School of Public Health	San Francisco, CA, USA
April 22	When triumphant epidemics finally met epidemiology	University of South California	Los Angeles, CA, USA
April 25	Causal Interaction: Obscure Object of Epidemiologic Desire	Department of Epidemiology, UCLA	Los Angeles, CA, USA
June 18	Political Epidemiology of Case-Control Studies	The Johns Hopkins University, Bloomberg School of Public Health	Baltimore, MD, USA

August 15-20	History of epidemiologic ideas	Erasmus Summer Program	Rotterdam, The Netherlands
September 21	Before the lab take it away from epidemiology	Epidemiology, Risk & Genomics, University of Cambridge, Department of History and Philosophy of Science	Cambridge, UK
October 8-11	Advanced Methods in Epidemiology: History and Concepts	MPH Course 4150.10, University of Zurich, CH	Zurich, Switzerland
November 12	Holism and Reductionism: Beyond Coexistence	Moderated Panel: Is Integrative Oncology Ready for Comparative Effectiveness Research? New York Academy of Medicine, NYC	New York, USA
2011			
March 11	Political epidemiology of case-control studies: 1900-1950.	Columbia University, Mailman School of Public Health, Department of Epidemiology	New York, NY, USA
August 7	Will epidemiologic methods and concepts cease to evolve?	Pre-Congress Course of the International Epidemiology Association	Edinburgh, UK
August 22-26	History of epidemiologic ideas	Erasmus Summer Program	Rotterdam, The Netherlands
September 16	Commuting mode and inflammatory response: a case-control study	23 rd Annual Conference of the International Society for Environmental Epidemiology	Barcelona, Spain
November 2	Nazism and Public Health: Are they compatible?	Plenary session. Philosophy of Medicine Roundtable University of the Basque Country, Donostia	San Sebastian, Spain
November 12	Os metodos e conceitos epidemiologicas iran parar de evoluir ?	Pre-Congress Course of the Brazilian Epidemiology Association (ABRASCO)	Sao Paolo, Brazil
November 14	The Nazi study on tobacco and lung cancer: Science or propaganda?	Congress of the Brazilian Epidemiology Association (ABRASCO)	Sao Paolo, Brazil
November 26	Comment distinguer croyances et connaissance par l'épidémiologie causale.	Deuxième symposium du GERHPAC Quelle médecine pour demain : libre choix ou tyrannie de la preuve ?	Hôpital André Vésale - Montigny-le-Tilleul, CHU Charleroi, Belgique

December 12	David Hume and Bradford Hill, similar but different	Keynote speaker. Plenary session. The Philosophy of Epidemiology – conceptual issues in epidemiological methodology, population health policy, and the use of scientific evidence in law.	University of Johannesburg, South Africa
2012			
January 26	Santé. Distinguer croyances et connaissance	Conférence inaugurale. “La médecine au-delà des sentiers battus. Hinterfragte Medizin”. Quadrimed. Congrès médical organisé par les 4 cliniques de Montana.	Montana-Crans, Valais, Suisse.
April 12	Will epidemiologic methods and concepts cease to evolve?	Division of Epidemiology, University of California	Berkeley, USA
April 13	History of case-control studies	Division of Epidemiology, University of California	Berkeley, USA
May 29	"Epidemiology: Past, Present and Future"	30th anniversary of the Graduate Summer Institute of Epidemiology and Biostatistics, Department of Epidemiology, Johns Hopkins Bloomberg School of Public Health	Baltimore, MD
