SEYS 767.3 Technology integration for World Language instruction and assessment

Summer Session 2 June 29-July 22        2LTC    MTWR  1:00 pm-3:40 pm

Course is fully online with synchronous and asynchronous instruction.

Instructor: Professor Marissa Coulehan

Course Description:

In this course, students will learn how to integrate a variety of cognitively engaging technology resources for the K-12 world language classroom. Throughout the course students will design formative assessments and create an exemplar unit integrating technology with the three modes of communication (interpretive, interpersonal, and presentational).

Deliverables from course:

Create a video or an infographic explaining the SAMR framework.

Create a continuum of digital learning tasks and formative assessments in the world language classroom according to the SAMR framework.

Create an inventory of tech resources for the world language classroom, including several examples of each of the three modes of communication.

Create an exemplar unit integrating technology and the SAMR framework with three modes of communication and publish tasks on the NYSAPAT DesignSpace.

Who can take this course?

Any in-service teacher in NYS can take this course for salary differentials. Apply to QC as a non-matric student. Click here for Tuition and Fees.

All World Language graduate students are eligible to take this course. This course does not count toward initial certification or the MSEd degree; it can count toward your salary differentials. Please see your union materials for details.

This course fulfills one of the Selected Topics courses for the MAT.
