This 4-year academic plan is designed to help freshmen entering Queens College in Fall 2017 plan their academic career and ensure that they complete all requirements for graduation in a timely fashion. All other students should consult their academic and department advisors to chart their own 4-year academic plans. Students should note that course prerequisite/s and corequisite/s are strictly enforced, and they should regularly meet with their department advisors to identify their specific major/minor requirements and entrance and maintenance criteria (if applicable) for successful completion of their degree.

General Education requirements may be taken in any order if the pre-requisite requirement(s) is/are satisfied. If a COPT Literature course is taken with a W, it will count towards Literature and one Writing Intensive Unit.

Students majoring in Byzantine and Modern Greek Studies are required to complete Greek Studies 100 plus either Greek Studies 101 or 102 for a total of 6 core credits. The remaining 30 credits do not require specific sequencing except for the Modern Greek Language courses. Depending on language placement, a student may have more than one language course to complete. If this is the case, Modern Greek language courses will be taken in lieu of General Electives.

Students must meet with the program director to plan their schedule of classes each semester as there may be changes in the course options.

**General Electives: Students may complete general electives by taking courses in (most) department/s or programs they choose; however, depending on the course/program, students may need department permission and/or prerequisite course/s. Electives may be used to supplement the chosen major (an English major may want to take a course in French or Italian literature) or to fulfill interest in a different area (a Music major may be interested in the physics of sound). Students are encouraged to use available electives to complete a dual major, minor, prerequisites for graduate or professional school, or complete an internship, experiential learning and/or study abroad. Students are encouraged to use their available general electives wisely and focus on coursework that will assist them personally, academically and professionally.
