Be sure to include a copy of the questions asked during the interview as an attachment to this report.

Provide a summary of the committee’s findings. Be sure to indicate strengths and, if applicable, areas for improvement.
GENERAL RECOMMENDATIONS.

- It is recommended that a minimum of 3 committee members attend each interview (but no less than 2 committee members).
- The review committee should create a list of interview questions to use during interview sessions. While some questions will vary across interviews, please try to keep questions as consistent as possible across interviewees.
- The Provost’s Office will help convert the interview questions into a survey tool.
- The goal is to provide a written summary report to the Provost’s Office within 60 days of being charged (there is much flexibility due to the holidays – aim for early within the Spring semester).
