

5th Annual Reimagining Science & Technology Education Conference

Queens College, CUNY
Friday, April 28, 2023
8:30 AM – 1:30 PM

Keynote Address

This year's keynote address, *What Came Before the Big Bang?*, will be given by Dr. David Hogg from NYU. Dr. Hogg is an astrophysicist who will share his research with attendees.

Workshops

All participants will have the opportunity to participate in two workshops during the conference. The workshops offered at this year's conference include opportunities for middle and high school students to engage in science experiments and demonstrations. There will also be workshops for science educators on scientific pedagogy and NGSS activities.

Poster Session

Research conducted by our science education students as well as high school science students will be presented during this poster session.

Who can Attend?

The conference is open to all interested science educators, middle and high school science students, and members of the science education community. We welcome all interested participants. We can offer professional development credit to teachers. Middle and high school science teachers, bring your students! Lunch will be provided.

If you are interested in attending, please register at the following link:
