

NEED HELP WRITING A GREAT RESUME?

Start with Resume Worded!

WHAT IS RESUME WORDED?

Resume Worded is an AI-powered platform that instantly gives you tailored feedback on your resume.

HOW TO USE IT

As a first step in the resume writing process, we encourage you to have your initial resume reviewed this way. It's free, it's fast, and it's a great way to get feedback on your layout and content and, of course, put your best foot forward!

AFTER YOU UPLOAD

We DON'T encourage you to pay for any add-on services. We DO, however, encourage you to schedule an appointment with your Career Educator in the Center for Career Engagement and Internships (CCEI) to improve this preliminary work and take on the next steps!

NEXT STEPS:

- Go to resumeworded.com and upload your resume for review
- Visit tinyurl.com/qccareerliasion and find the Career Educator who matches your major or career interests
- Make an appointment with your Career Educator at navigate.qc.cuny.edu to edit and improve your reviewed resume

Pro tip: Be prepared for follow up email recommendations from the service and ensure that the email you register with is one to which you are ok receiving multiple emails.
