

Fall 2023 Geology 101 Peer Mentor Tutoring Hours

Location: Science Building, 1st Floor, Room D-108

There are several upperclassmen who will participate in our Geology 101 lecture & laboratory classes, provide weekly tutoring hours, and help organize group study sessions. Have a question about class topics? Want more practice looking at rocks and minerals? Help with flashcards? Exam review? Visit the peers during their office hours (below). Regardless of which peer's are in your class, you can visit ANY of the peers for extra help with lecture and lab topics.
