

School of Earth and Environmental Sciences Colloquium Series

Alfredo Morabia, MD, PhD

Professor of Epidemiology
Barry Commoner Center

**“Medicine vs public health: two profoundly
different approaches to health?”**

Wed., Oct. 25th

12:15-1:30PM

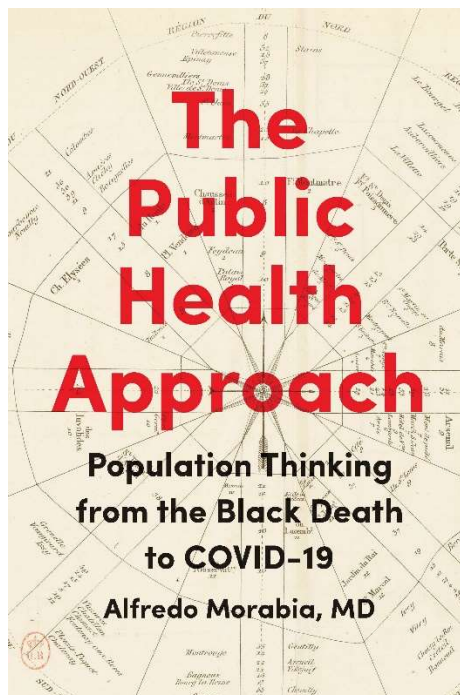

Science Bldg.

C-207

Zoom ID:

820 5441 6677

Passcode: 895367

In this lecture, Dr. Morabia will discuss how medicine provides care to the individual, whereas public health protects populations. Some reactions to the public health recommendations and mandates during the pandemic indicate that this essential distinction, and its consequences, are not always understood by the public.
