Global Search - Class Schedule

Global Search finds courses across the University using filters such as college, semester, subject area, time, and online/in-person delivery.

Students can also use Global Search to find courses with specific attributes, such as courses affiliated with a particular program like ASAP or College Now, or courses with Zero Textbook Cost, or courses that fulfill Major Gateway requirements. Use the "Course Attribute" and "Course Attribute Value" search fields to explore these and other options. Questions about course options and availability should be directed to your academic advisor.

Visit the [Frequently Asked Questions](#) page to learn more about Global Search. For additional information about the ePermit process for taking courses at CUNY colleges other than your home college, visit the [Register for a Course](#) or [ePermit](#) page.

To register for courses found using Global Search, log into your [CUNYfirst](#) student account.
