

## LOGIC MODEL (THEORY OF CHANGE) WORKSHEET

Office:

Date:

Use this document to (1) describe the relationships between objectives, actions taken to meet objectives, the changes expected to result from actions taken, and the evidence that would indicate these changes have taken place, and (2) think about objectives in terms of short- and longer-term assessment strategies.

### ACTIONS

How will you meet Mission Theme 1 objectives?

### INPUTS

What resources are required for these actions to be implemented (e.g. time, money, expertise, partners, materials, equipment, space, technology, etc.)?

### OUTPUTS

What changes or outcomes do you expect to see as a result of these actions? How will know if these results have taken place?

How will you meet Mission Theme 2 objectives?

What resources are required for these actions to be implemented?

What changes or outcomes do you expect to see as a result of these actions? How will know if these results have taken place?

How will you meet Mission Theme 3 objectives?

What resources are required for these actions to be implemented?

What changes or outcomes do you expect to see as a result of these actions? How will know if these results have taken place?
