Brightspace Advanced Training for Faculty – Spring 2026

This Spring, CETLL will be continuing our series of workshops covering advanced features in Brightspace.

Sessions on each topic will be offered twice, in order to accommodate faculty schedules. Each session will begin with a demonstration, followed by a hands-on period where you can apply what you learned to your Brightspace course.

Please join us for the "Gradebook" sessions on Thursday, February 26, 2026, and Monday, March 2, 2026, from 1p-3p. We will cover Brightspace Gradebook topics such as Weighting grades, Categories, Add/delete grade items, Display grades, Curve grades, Quick Eval, Ungrading, and Grade Passback. We will meet on Zoom.
