CETLL's Spring 2026 Teaching & Learning Showcase

Assignments that Build Student Skills in the Age of Generative AI

Friday, April 17, 2026

9:00 a.m. - 1:00 p.m.

Muyskens Conference Room (The Summit)

Register Here

Breakfast will be served.

Are you a QC faculty who is...

⭐ experimenting with ways to incorporate student use of gen AI in your course assignments?

⭐ concerned that students are offloading their learning when they use gen AI in assignments?

⭐ curious about how other CUNY faculty are addressing student use of AI in assignments?

⭐ all of the above?

Please join CETLL for a faculty development program focused on the design of assignments aimed at building foundational student skills (e.g. critical thinking/reading/writing) and discipline-specific skills along with AI literacy through the intentional use of generative AI.

PROGRAM:

- Guest Speaker Dr. Gina Rae Foster (Teaching and Learning Center Director, John Jay College of Criminal Justice), Flipping the Pyramid: Developing Critical Thinking Skills with GenAI

- Faculty Panel: Assignments in Progress and the Evolution of Learning

- Hands-on Work Time: Bring an Assignment to Develop or Revise
