Working with a Grade Center imported from Blackboard:

1. In your Brightspace course, click on Grades in the Navigation bar.

   a. Select items to delete.
   b. Click More Actions.
   c. You will be asked to delete again under Delete Grade Items and Categories. Select items to delete.

Resolve error messages in Manage Grades

To resolve the errors resulting from converting to the weighted system, you must redistribute the weights for categories and/or grade items. Using categories is a good way to assign weights and keep your Grade book organized.
1. To organize items into categories, click New and select Category.

2. Enter a Name.

3. Enter a percentage for the Weight.
4. Select options under Distribution and Display Options. Click Save and Close.

5. Repeat the process for other Categories such as Discussions and Quizzes.

6. In the Manage Grades tab, select items to add to a category by clicking the checkbox to the left of each item.
7. Click Bulk edit.

8. Scroll to Categories, the last column on the right.

9. Click on the drop-down menu to select a Category for each item and click Save.

10. Follow the same steps for other items and categories (Discussions, Quizzes, etc.).
