

Campus Planning, Construction & Design

On Going and Current Projects

Summer 2026

New Projects

Elevator Modernization – Razran Hall & Rosenthal Library

Full replacement and modernization of all elevators in Razran Hall and Rosenthal Library, including mechanical, electrical, and accessibility upgrades. This project will be phased carefully to minimize disruption to building access and service continuity. Due to this project some elevators will be offline at different stages; building occupants will be notified in advance. Starts Summer 2026

Parking Structure Renovation

The parking structure (Parking Lot 14) behind the Rosenthal Library is undergoing structural repairs to address existing damage and provide better stormwater drainage. The lower parking level (Parking Lot 5) will also be repaved. Both lots will be closed for the duration of construction through Summer 2027.

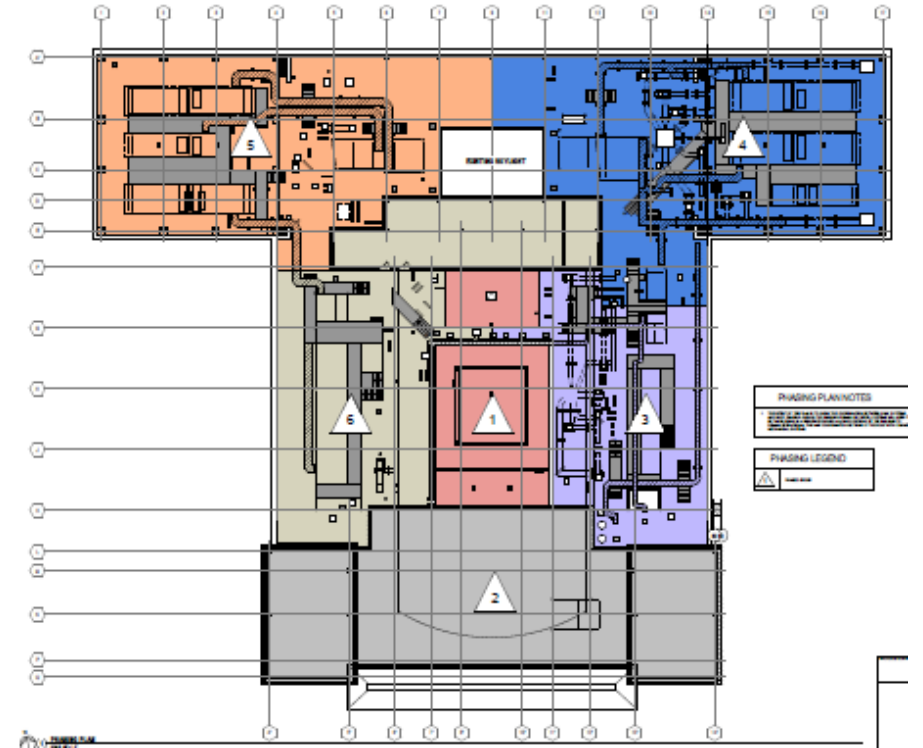

New Projects cont'd

Klapper Hall HVAC Renovation

Comprehensive renovation of the building's heating, cooling and ventilation systems, and roof replacement. Due to this project, there may be temporary limited access to areas; impacted departments will be notified and supported. Construction is expected to take approximately 24 months.

Razran Hall and SB – Anthropology and SEES Lab Renovations

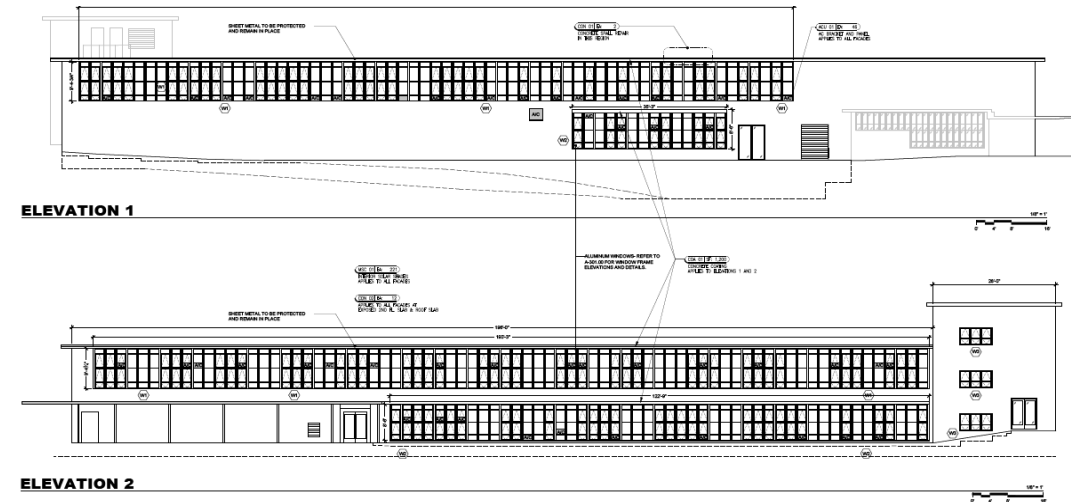

Comprehensive renovation of Anthropology and Environmental Science labs in Razran Hall and Science Building, including upgraded MEP systems, safety features, and lab casework. Due to this project, there may be temporary limited access to areas; impacted departments will be notified and supported. Construction is expected to take a year.

New Projects cont'd

King Hall – Window Reconstruction

Full replacement of all exterior windows in King Hall to improve energy performance, climate control, and building appearance. The project will require phased access to classrooms and offices during installation; work will be scheduled to minimize disruptions. Starts Summer 2026

Utility Tunnel – Reconstruction

Structural repairs of the utility tunnel in various areas throughout campus. The project will be phased out in locations and alternate routes around campus will be posted. Starts Summer 2026.

Current Projects

Queens Hall – Library Renovation to Office Space

Conversion of the former library space into new administrative and clinical office suites. There are no expected interruptions to campus operations. Ends Fall 2026.
